2.2 Specific clauses for the Program 2 fleet

2.2.1 Maximum ITQ

The maximum ITQ for this Program is 0.19348% of the Area 12 snow crab fleet TAC.

2.2.2 Minimum ITQ

The minimum ITQ for this Program is 0.0476251% of the Area 12 snow crab fleet TAC.

2.2.3 Temporary transfer

The maximum that a Participant may hold by Temporary transfer is 0.19348% of the Area 12 snow crab fleet TAC.

2.3 Elements relating to the Licensing Policy

2.3.1 Related licences

2.3.1.1 This Program covers all fishing enterprises residing on the Gaspé Peninsula Gaspésie (GLSL) that received a temporary snow crab allocation for Area 12 associated with either a fixed gear groundfish licence attached to a vessel of less than 19.81 m (65 ft) or a scallop or herring licence.

2.3.1.2 A new access regular licence would be inseparable from a fishing licence entitling the holder to an allocation. This clause does not apply when the Individual Transferable Quota (ITQ) of snow crab is transferred in whole to one or more Participant(s). In such a case, holders of a licence for new access allocations who abandon the snow crab licence may no longer request government aid of any kind for the viability of their fishing enterprise.

4.2.1 Maximum ITQ

The maximum ITQ for this Program is 20% of the Fleet allocation.

4.2.2 Minimum ITQ

The minimum ITQ for this Program is 10% of the Fleet allocation.

4.2.3 Temporary transfer

The maximum that a Participant may hold by Temporary transfer is 45% of the Fleet allocation.

4.2.4 Number of traps

When the ITQ of a Participant reaches 12.5% per Permanent transfer, he or she can use 50% more traps than the regular number of traps authorized in the current Management plan. When the ITQ of a Participant reaches 20% of the overall quota of Area 12A, he or she may use twice the number of traps normally authorized in the current Management plan.

Adjustment of the number of traps is effective for the next Management year.

5.2.2 Minimum ITQ

The minimum ITQ for this Program is 12.5% of the Fleet allocation.

5.2.3 Temporary transfer

The maximum that a Participant may hold by Temporary transfer is 37.5% of the Fleet allocation.

5.2.4 Number of traps

Once a Participant reaches 20% of the overall quota for Area 12B by Permanent transfer, he or she may use 50% more traps with respect to the regular number of traps authorized under the Management plan in force.

Adjustment of the number of traps is effective for the next Management year.

5.3 Elements relating to the Licensing Policy

5.3.1 Related licences

5.3.1.1. In all cases where a Permanent transfer leaves a Participant with an ITQ that is lower than the minimum ITQ, the Participant is automatically excluded from the Program, and the crab and groundfish licences are returned to DFO.

6.2 Specific clauses for the Program 6 fleet

6.2.1 Base quota

ITQ corresponding to the % obtained during the implementation of the Program.

- Area 12C, Group B (New Access) - Each Area 12C, Group B snow crab licence holder holds 2.6315% of the quota allocated to Area 12C, Group B.
- Area 15, Group B (New Access) - Each Area 15, Group B snow crab licence holder holds 4.166% of the quota allocated to Group B.

6.2.2 Maximum ITQ

A Participant may hold a maximum of 7.895% of the Area 12C, Group B snow crab quota or 12.498% of the Area 15, Group B snow crab quota or a combination of quota in both areas totalling a maximum of three base ITQs (i.e. a maximum of three base ITQs in either the Area 12C, Group B or Area 15, Group B).

6.2.3 Minimum ITQ

The minimum ITQ level of snow crab that a Participant can hold shall be equal to 2.6315% of the snow crab quota in Area 12C, Group B or 4.166% of the snow crab quota in Area 15, Group B.

6.2.4 Temporary transfer

A Participant may hold by Temporary transfer a maximum of six (6) base ITQs for snow crab in Area 12C, Group B and Area 15, Group B (New Access). The six (6) base ITQs may be held in a single area or a combination thereof as shown in Table 1:

6.3 Elements relating to the Licensing Policy

6.3.1 Related licences

6.3.1.1 The snow crab licence held by a Participant in this Program is inseparable from groundfish licences that have been eligible for the snow crab allowance.

6.3.1.2 In all cases where a Permanent transfer leaves a Participant in a situation where his or her ITQ falls below the minimum ITQ, the Participant is automatically excluded from the Program. The snow crab licence—as well as the groundfish with fixed gear and trap licences—must be returned to DFO.

The maximum ITQ for this Program is 10% of the Fleet allocation.

12.2.2 Minimum ITQ

The minimum ITQ for this Program is 2.0% of the Fleet allocation.

12.2.3 Communal licence

A Participant holding a communal licence may not permanently transfer his or her ITQ in whole or in part to another Participant. He or she may, however, acquire an ITQ or a portion of an ITQ pursuant to article 12.2.1.

12.2.4 Number of traps

Any Permanent transfer of an ITQ will be combined with a permanent transfer of a number of traps calculated pro rata of said transfer. For this, the number of reference traps is 85 traps.

Adjustment of the number of traps is effective for the next Management year.

12.2.5 Temporary transfer

The maximum that a Participant may hold by Temporary transfer is 10% of the Fleet allocation.

13.2 Specific clauses for the Program 13 fleet

13.2.1 Maximum ITQ

The maximum ITQ for this Program is 12% of the Fleet allocation.

13.2.2 ITQ minimum

The minimum ITQ for this Program is 2.9333% of the Fleet allocation. A grandfather clause applies in cases where the ITQ is already below this level at the time that these Regional Guidelines is implemented.

13.2.3 Temporary transfer

The maximum that a Participant may hold by Temporary transfer is 15% of the Fleet allocation.

13.3 Elements relating to the Licensing Policy

13.3.1 Related licences

13.3.1.1 The snow crab licence held by a Participant in this Program is inseparable from groundfish licences that have been eligible for the snow crab allowance.

13.3.1.2 If a Permanent transfer places a Participant in a situation where his or her ITQ falls below the minimum ITQ, the Participant is automatically excluded from the Program and the snow crab licence and licence for new access allocations are returned to DFO.
